

Postgraduate Induction Week 2017

Monday 25 September

2pm – 4pm: College enrolment

2.00pm	MA Computational Arts
3.00pm	MFA Computational Arts
3.00pm	MA Computer Games Art & Design
3.00pm	MA Independent Games & Playable Experience Design
3.30pm	MSc Data Science

Great Hall,
Richard Hoggart Building

5pm – 5.30pm: Work placement and employability lecture

Start thinking now about how your Computing degree and work experience will translate into employment opportunities. This session is mainly aimed at undergraduate students, but could still be very useful for postgrads.

Ian Gulland Lecture Theatre,
Whitehead Building

Tuesday 26 September

10.30am – 5pm: DoC.Hack

Our welcome week hackathon is a great way to get to know the Goldsmiths' Computing community. For six hours, you'll design and build tech projects, and meet your fellow students in a relaxed, informal environment. Absolutely no skills needed - just bring a laptop.

Info + sign-up: <http://goldsmiths.tech/doc>

Room 300, 2nd floor
Richard Hoggart Building

Friday 29 September

2.30pm – 4pm: Computing Department induction

Your big welcome to the Department of Computing. Meet the teaching, tech and admin staff who will be supporting you during your studies. You'll also meet the programme leader for your degree, who will welcome you to your Master's. **Attendance is compulsory**

Room 304, 2nd floor
Richard Hoggart Building

4pm onwards: Informal drinks

Join us for a drink at New Cross House. We've booked the upstairs section of the strange wooden house in the back garden. If you get peckish, the pizzas are nice (though the vegan one is a bit too austere for our liking).

Pub garden stables,
New Cross House
